

Brian Church, AIA, CDS

Statement of intention:

Urban Labs was formed to combine experience in design, development and management of retail, entertainment and residential projects - producing projects with both design integrity and financial viability. Urban Labs is uniquely qualified to address the distinct priorities of established communities, as well as the demands and expectations of the financial world. Urban Labs uses creative skills in planning, design and architecture to define real world development strategies that result in truly great places.

List of clients:

The Queen Emma Foundation
Corti-Gilchrist Partnership
Port of San Diego
Hollywood Motion Picture Collection
Hollywood Art Center School
